

Final 7-Day Meal Plan

Seed Rotation + Overnight No-Cook Breakfast Edition

Synchronized to the approved Excel Version 2. Breakfast now has four options per day, including one true no-cook-morning overnight option. The companion shopping workbook and GitHub site are synchronized to the same revision.

Average calories	Average protein	Average fiber	Breakfast choices
1779 kcal	124.5 g	43.0 g	28 total

Vitamin D remains below the 15 µg/day food target on most days. Vitamin E improves with the sunflower rotation but remains below 15 mg/day in the conservative food-only model because the unspecified cooking oil contribution is excluded.

Daily Nutrition Summary

Day	kcal	Protein	Carbs	Fiber	Fat	Calcium	Mg	Potassium	Omega-3
Day 1	1773	120.3	212.8	38.2	53.1	1009	560	4690	4.70

Breakfast Rotation & Overnight Plan

Day	Separate seed mix	Daily kcal	Protein	Fiber	Status
Day 1	Chia seeds 8 g + Ground flaxseed 7 g + Hemp hearts 5 g	1773	120.3	38.2	PASS
Day 2	Sesame seeds 5 g + Hemp hearts 5 g + Chia seeds 5 g	1811	124.3	47.7	PASS
Day 3	Chia seeds 5 g + Pumpkin seeds 5 g + Sunflower seeds 5 g	1780	124.3	43.7	PASS
Day 4	Ground flaxseed 5 g + Hemp hearts 5 g + Sunflower seeds 5 g	1809	129.2	40.0	PASS
Day 5	Sesame seeds 5 g + Sunflower seeds 5 g + Chia seeds 5 g	1779	124.3	45.2	PASS
Day 6	Chia seeds 5 g + Hemp hearts 5 g + Pumpkin seeds 5 g	1750	126.5	43.9	PASS
Day 7	Ground flaxseed 5 g + Chia seeds 5 g + Sunflower seeds 5 g	1753	122.5	42.4	PASS

Option 4 is assembled the evening before and requires zero cooking in the morning. Use rolled oats, thick poha, or label-confirmed ready-to-eat / steam-processed ragi flakes. Keep seeds in a separate container and use batch-cooked eggs/egg whites. Consume the refrigerated jar within 24 hours.

Day 1

1773 kcal | 120.3 g protein | 38.2 g fiber | 4.70 g omega-3 | 34.4 µg vitamin D

Base Recommended Day

Meal	Exact ingredients	kcal	Protein	Fiber
Breakfast	Oats 45 g Low-fat milk 300 ml Whole eggs 1 Egg whites 100 g Mushrooms [CF] 100 g SEPARATE SEED SIDE: Chia seeds 8 g Ground flaxseed 7 g Hemp hearts 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/grain bowl	546	40.6	10.4
Mid-morning fruit	Papaya [CF] 150 g Eat alone; ≥2 h after breakfast and ≥2 h before lunch	64	0.8	2.5
Lunch	Chicken breast 100 g ICAN cod liver 20 g Rice (dry) 45 g Toor dal (dry) 35 g Asparagus [CF] 100 g Cauliflower [CF] 150 g Onion [CF] 40 g Sesame seeds 12 g Cooking oil 3 g No milk/curd/yogurt	664	42.6	13.0
Dinner	Chicken breast 100 g Rice (dry) 40 g Cabbage [CF] 150 g Carrots [CF] 100 g Mushrooms [CF] 100 g Frozen sweet peas [CF] 60 g Sesame seeds 10 g Cooking oil 3 g No milk/curd/yogurt	499	36.3	12.3

Breakfast - 4 Interchangeable Options

RECOMMENDED: Warm Oats + Eggs + Separate Seed Side		546 kcal 40.6 g protein 10.4 g fiber
Oats 45 g Low-fat milk 300 ml Whole eggs 1 Egg whites 100 g Mushrooms [CF] 100 g SEPARATE SEED SIDE: Chia seeds 8 g Ground flaxseed 7 g Hemp hearts 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/grain bowl	Cook the listed oats/ragi with milk. Cook or use batch-prepared eggs/egg whites separately. Eat the measured seed mix from a separate small bowl/container; do not stir it into the milk/grain meal.	
Morning: Cook grain/eggs Night before: Optional seed pre-portion	Open YouTube reference	
OPTION 2: Unsalted Ragi-Moong Chilla + Milk + Egg		506 kcal 33.0 g protein 11.8 g fiber
Ragi flour 25 g Moong dal (dry) 25 g Low-fat milk 275 ml Whole eggs 1 Egg whites 50 g Cooking oil 2 g SEPARATE SEED SIDE: Chia seeds 8 g Ground flaxseed 7 g Hemp hearts 5 g No added salt; no onion/garlic because milk is part of this breakfast	Use soaked/batch-ground moong with ragi and permitted salt-free spices to make thin chillas with exactly 2 g oil. Serve milk, egg/egg whites and the seed side separately. No added salt/onion/garlic.	
Morning: 6–10 min cooking Night before: Soak moong / use batch batter	Open YouTube reference	
OPTION 3: Unsalted Poha-Moong Egg Bowl + Milk		537 kcal 34.7 g protein 11.4 g fiber

Thick poha / flattened rice (dry) 25 g Moong dal (dry) 20 g Frozen sweet peas [CF] 50 g Low-fat milk 285 ml Whole eggs 1 Egg whites 50 g Cooking oil 2 g SEPARATE SEED SIDE: Chia seeds 8 g Ground flaxseed 7 g Hemp hearts 5 g No added salt; no onion/garlic because milk is part of this breakfast	Soften poha, fold in cooked moong and peas, and heat with permitted salt-free spices using exactly 2 g oil. Serve milk and eggs separately. Eat the seed mix separately. No added salt/onion/garlic.
Morning: 6–10 min cooking Night before: Use batch-cooked moong if desired	Open YouTube reference
NO-COOK MORNING: Overnight No-Cook Breakfast Jar + Pre-Cooked Eggs	543 kcal 39.0 g protein 10.3 g fiber
Rollled oats 40 g Ready-to-eat / steam-processed ragi flakes 10 g Low-fat milk 300 ml Whole eggs 1 Batch-cooked egg whites 100 g SEPARATE SEED SIDE: Chia seeds 8 g Ground flaxseed 7 g Hemp hearts 5 g No added salt; no onion/garlic Use RTE/steam-processed ragi flakes only — not raw ragi flour	At night, combine only the listed grain/flakes and milk in a covered jar and refrigerate. Portion the seed mix in a separate container. Use eggs/egg-white portions cooked in batch earlier. In the morning, eat directly with no cooking. Keep refrigerated ≤4°C/40°F and use within 24 hours.
Morning: 0 min cooking Night before: 2–3 min assembly; refrigerate ≥6 h	Open YouTube reference

Other Meal Recipe Options

Mid-morning fruit

Option 1: Plain Papaya	2 min prep 0 cook Batch: No	No video needed
Prepare the measured papaya and eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 2: Chilled Papaya	2 min prep 0 cook Batch: No	No video needed
Chill the measured papaya and eat it by itself; do not add seasonings or other foods.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 3: Papaya - Alternate Cut	2 min prep 0 cook Batch: No	No video needed
Slice, dice, or lightly mash the measured papaya for a different texture; eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed

Lunch

Option 1: Chicken-Toor Dal Rice Bowl	8 min prep 15–20 min cook Batch: Yes	YouTube
Pressure-cook toor dal with onion, asparagus, cauliflower, turmeric, cumin and ginger. Lightly sauté chicken using only the listed oil. Serve with cooked rice, sesame, and cod liver separately without heating.	Recommended — Best batch option	YouTube search fallback
Option 2: One-Pot Chicken Dal Khichdi	8 min prep 12–15 min cook Batch: Yes	YouTube
Combine rice, toor dal, chicken, onion and vegetables with turmeric/cumin/ginger and water. Pressure-cook until tender; finish with sesame. Eat cod liver separately.	Lowest cleanup	Direct reference
Option 3: Pepper Chicken + Vegetable Toor Dal	10 min prep 15 min cook Batch: Yes	YouTube
Batch-cook toor dal with vegetables. Cook chicken with pepper, cumin, ginger and the listed oil. Serve together with rice and sesame; cod liver separately.	Good texture variety	YouTube search fallback

Dinner

Option 1: Chicken Vegetable Pulao	8 min prep 12–15 min cook Batch: Yes	YouTube
Use listed oil to bloom cumin/ginger; add chicken, rice, cabbage, carrot, mushrooms and peas. Pressure-cook until rice/chicken are done; finish with sesame.	Recommended — One-pot favorite	Direct reference
Option 2: Sesame Chicken Vegetable Rice Bowl	8 min prep 12 min cook Batch: Yes	YouTube
Cook chicken and vegetables covered with turmeric, cumin, ginger and pepper. Serve over pre-cooked rice; sprinkle sesame.	Best with batch rice	YouTube search fallback
Option 3: Chicken Vegetable Soup Rice	6 min prep 15 min cook Batch: Yes	YouTube
Pressure-cook chicken, cabbage, carrot, mushrooms and peas with ginger, pepper and cumin into a thick soup. Serve with rice and sesame.	Lightest texture	YouTube search fallback

Day 2

1811 kcal | 124.3 g protein | 47.7 g fiber | 2.40 g omega-3 | 7.0 µg vitamin D

Base Recommended Day

Meal	Exact ingredients	kcal	Protein	Fiber
Breakfast	Ragi flour 45 g Low-fat milk 300 ml Whole eggs 1 Egg whites 50 g SEPARATE SEED SIDE: Sesame seeds 5 g Hemp hearts 5 g Chia seeds 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/ragi bowl	455	28.5	7.7
Mid-morning fruit	Kiwi [CF] 150 g Eat alone; ≥2 h after breakfast and ≥2 h before lunch	92	1.7	4.5
Lunch	Chicken breast 100 g Rajma (dry) 45 g Rice (dry) 40 g Cabbage [CF] 150 g Cauliflower [CF] 150 g Onion [CF] 50 g Sesame seeds 10 g Cooking oil 3 g No milk/curd/yogurt	595	43.1	20.5
Dinner	Whole eggs 2 Egg whites 150 g Moong dal (dry) 40 g Asparagus [CF] 120 g Mushrooms [CF] 150 g Carrots [CF] 100 g Rice (dry) 35 g Sesame seeds 10 g Cooking oil 3 g No milk/curd/yogurt	669	51.0	15.0

Breakfast - 4 Interchangeable Options

RECOMMENDED: Ragi Milk Porridge + Eggs + Separate Seed Side		455 kcal 28.5 g protein 7.7 g fiber
Ragi flour 45 g Low-fat milk 300 ml Whole eggs 1 Egg whites 50 g SEPARATE SEED SIDE: Sesame seeds 5 g Hemp hearts 5 g Chia seeds 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/ragi bowl		Cook the listed oats/ragi with milk. Cook or use batch-prepared eggs/egg whites separately. Eat the measured seed mix from a separate small bowl/container; do not stir it into the milk/grain meal.
Morning: Cook grain/eggs Night before: Optional seed pre-portion		Open YouTube reference
OPTION 2: Unsalted Ragi-Moong Chilla + Milk + Egg		483 kcal 32.1 g protein 9.5 g fiber
Ragi flour 25 g Moong dal (dry) 25 g Low-fat milk 275 ml Whole eggs 1 Egg whites 50 g Cooking oil 2 g SEPARATE SEED SIDE: Sesame seeds 5 g Hemp hearts 5 g Chia seeds 5 g No added salt; no onion/garlic because milk is part of this breakfast		Use soaked/batch-ground moong with ragi and permitted salt-free spices to make thin chillas with exactly 2 g oil. Serve milk, egg/egg whites and the seed side separately. No added salt/onion/garlic.
Morning: 6–10 min cooking Night before: Soak moong / use batch batter		Open YouTube reference
OPTION 3: Unsalted Poha-Moong Egg Bowl + Milk		510 kcal 33.5 g protein 9.1 g fiber

Thick poha / flattened rice (dry) 25 g Moong dal (dry) 20 g Frozen sweet peas [CF] 50 g Low-fat milk 275 ml Whole eggs 1 Egg whites 50 g Cooking oil 2 g SEPARATE SEED SIDE: Sesame seeds 5 g Hemp hearts 5 g Chia seeds 5 g No added salt; no onion/garlic because milk is part of this breakfast	Soften poha, fold in cooked moong and peas, and heat with permitted salt-free spices using exactly 2 g oil. Serve milk and eggs separately. Eat the seed mix separately. No added salt/onion/garlic.
Morning: 6–10 min cooking Night before: Use batch-cooked moong if desired	Open YouTube reference
NO-COOK MORNING: Overnight No-Cook Breakfast Jar + Pre-Cooked Eggs	456 kcal 28.4 g protein 7.7 g fiber
Ready-to-eat / steam-processed ragi flakes 45 g Low-fat milk 300 ml Whole eggs 1 Batch-cooked egg whites 50 g SEPARATE SEED SIDE: Sesame seeds 5 g Hemp hearts 5 g Chia seeds 5 g No added salt; no onion/garlic Use RTE/steam-processed ragi flakes only — not raw ragi flour	At night, combine only the listed grain/flakes and milk in a covered jar and refrigerate. Portion the seed mix in a separate container. Use eggs/egg-white portions cooked in batch earlier. In the morning, eat directly with no cooking. Keep refrigerated ≤4°C/40°F and use within 24 hours.
Morning: 0 min cooking Night before: 2–3 min assembly; refrigerate ≥6 h	Open YouTube reference

Other Meal Recipe Options

Mid-morning fruit

Option 1: Plain Kiwi	2 min prep 0 cook Batch: No	No video needed
Prepare the measured kiwi and eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 2: Chilled Kiwi	2 min prep 0 cook Batch: No	No video needed
Chill the measured kiwi and eat it by itself; do not add seasonings or other foods.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 3: Kiwi - Alternate Cut	2 min prep 0 cook Batch: No	No video needed
Slice, dice, or lightly mash the measured kiwi for a different texture; eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed

Lunch

Option 1: Chicken Rajma Masala Bowl	10 min prep 15 min after beans cooked cook Batch: Yes	YouTube
Use pre-soaked, fully cooked rajma. Cook onion/spices/chicken in listed oil; add cabbage, cauliflower and rajma. Serve with rice and sesame.	Recommended — Best if rajma is batch-cooked	YouTube search fallback
Option 2: Chicken-Rajma Pulao	8 min prep 12 min cook Batch: Yes	YouTube
Combine pre-cooked rajma, chicken, vegetables, rice, spices and water; pressure-cook until rice/chicken are done. Finish with sesame.	One-pot low effort	Direct reference
Option 3: Rajma Vegetable Curry + Pepper Chicken	8 min prep 12 min cook Batch: Yes	YouTube
Batch-cook rajma curry with cabbage/cauliflower/onion. Quickly cook chicken with pepper/cumin using listed oil. Serve with rice and sesame.	Best texture separation	YouTube search fallback

Dinner

Option 1: Egg-Moong Vegetable Khichdi	8 min prep 12–15 min cook Batch: Yes	YouTube
Pressure-cook moong, rice and vegetables. Fold in scrambled egg/egg whites after cooking or top with chopped boiled eggs. Finish with sesame.	Recommended — One-bowl dinner	YouTube search fallback
Option 2: Moong Vegetable Dal + Egg Bhurji	8 min prep 12 min cook Batch: Yes	YouTube
Batch-cook moong with asparagus, mushrooms and carrots. Make quick egg bhurji with permitted spices and listed oil. Serve with rice and sesame.	Good batch/fresh balance	YouTube search fallback
Option 3: Egg Moong Stew	6 min prep 12 min cook Batch: Yes	YouTube
Make a thick moong-vegetable stew; add chopped pre-boiled eggs/egg whites at serving. Serve with rice and sesame.	Lowest active effort	YouTube search fallback

Day 3

1780 kcal | 124.3 g protein | 43.7 g fiber | 2.00 g omega-3 | 7.0 µg vitamin D

Base Recommended Day

Meal	Exact ingredients	kcal	Protein	Fiber
Breakfast	Oats 37 g Low-fat milk 300 ml Whole eggs 2 Egg whites 50 g SEPARATE SEED SIDE: Chia seeds 5 g Pumpkin seeds 5 g Sunflower seeds 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/oats	516	36.2	6.2
Mid-morning fruit	Pineapple [CF] 150 g Eat alone; ≥2 h after breakfast and ≥2 h before lunch	75	0.8	2.1
Lunch	Chicken breast 100 g Moong dal (dry) 35 g Rice (dry) 35 g Asparagus [CF] 100 g Cabbage [CF] 150 g Cauliflower [CF] 100 g Onion [CF] 40 g Sesame seeds 10 g Cooking oil 2 g No milk/curd/yogurt	543	41.6	15.9
Dinner	Whole eggs 1 Egg whites 150 g Chickpeas (dry) 40 g Ragi flour 45 g Mushrooms [CF] 150 g Cabbage [CF] 150 g Frozen sweet peas [CF] 60 g Sesame seeds 10 g Cooking oil 2 g No milk/curd/yogurt	646	45.7	19.5

Breakfast - 4 Interchangeable Options

RECOMMENDED: Warm Oats + Eggs + Separate Seed Side		516 kcal 36.2 g protein 6.2 g fiber
Oats 37 g Low-fat milk 300 ml Whole eggs 2 Egg whites 50 g SEPARATE SEED SIDE: Chia seeds 5 g Pumpkin seeds 5 g Sunflower seeds 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/oats	Cook the listed oats/ragi with milk. Cook or use batch-prepared eggs/egg whites separately. Eat the measured seed mix from a separate small bowl/container; do not stir it into the milk/grain meal.	
Morning: Cook grain/eggs Night before: Optional seed pre-portion	Open YouTube reference	
OPTION 2: Unsalted Ragi-Moong Chilla + Milk + Egg		484 kcal 32.2 g protein 9.4 g fiber
Ragi flour 25 g Moong dal (dry) 25 g Low-fat milk 275 ml Whole eggs 1 Egg whites 50 g Cooking oil 2 g SEPARATE SEED SIDE: Chia seeds 5 g Pumpkin seeds 5 g Sunflower seeds 5 g No added salt; no onion/garlic because milk is part of this breakfast	Use soaked/batch-ground moong with ragi and permitted salt-free spices to make thin chillas with exactly 2 g oil. Serve milk, egg/egg whites and the seed side separately. No added salt/onion/garlic.	
Morning: 6–10 min cooking Night before: Soak moong / use batch batter	Open YouTube reference	
OPTION 3: Unsalted Poha-Moong Egg Bowl + Milk		510 kcal 33.5 g protein 9.0 g fiber

Thick poha / flattened rice (dry) 25 g Moong dal (dry) 20 g Frozen sweet peas [CF] 50 g Low-fat milk 275 ml Whole eggs 1 Egg whites 50 g Cooking oil 2 g SEPARATE SEED SIDE: Chia seeds 5 g Pumpkin seeds 5 g Sunflower seeds 5 g No added salt; no onion/garlic because milk is part of this breakfast Morning: 6–10 min cooking Night before: Use batch-cooked moong if desired	Soften poha, fold in cooked moong and peas, and heat with permitted salt-free spices using exactly 2 g oil. Lunch	Tilapia fillet 160 g Chickpeas (dry) 40 g Rice (dry) 40 g Asparagus [CF] 120 g Cauliflower [CF] 150 g Carrots [CF] 100 g Onion [CF] 40 g Sesame seeds 15 g Cooking oil 3 g No milk/curd/yogurt	682	52.7	16.2
Dinner	Chicken breast 100 g Moong dal (dry) 35 g Rice (dry) 40 g Cabbage [CF] 150 g Mushrooms [CF] 150 g Frozen sweet peas [CF] 60 g Sesame seeds 10 g Cooking oil 3 g No milk/curd/yogurt	590	45.3	15.7

Breakfast - 4 Interchangeable Options

RECOMMENDED: Warm Oats + Eggs + Separate Seed Side		446 kcal 30.0 g protein 5.7 g fiber
Oats 37 g Low-fat milk 300 ml Whole eggs 1 Egg whites 50 g SEPARATE SEED SIDE: Ground flaxseed 5 g Hemp hearts 5 g Sunflower seeds 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/oats		Cook the listed oats/ragi with milk. Cook or use batch-prepared eggs/egg whites separately. Eat the measured seed mix from a separate small bowl/container; do not stir it into the milk/grain meal.
Morning: Cook grain/eggs Night before: Optional seed pre-portion		Open YouTube reference
OPTION 2: Unsalted Ragi-Moong Chilla + Milk + Egg		478 kcal 30.7 g protein 8.9 g fiber
Ragi flour 25 g Moong dal (dry) 25 g Low-fat milk 275 ml Whole eggs 1 Egg whites 35 g Cooking oil 2 g SEPARATE SEED SIDE: Ground flaxseed 5 g Hemp hearts 5 g Sunflower seeds 5 g No added salt; no onion/garlic because milk is part of this breakfast		Use soaked/batch-ground moong with ragi and permitted salt-free spices to make thin chillas with exactly 2 g oil. Serve milk, egg/egg whites and the seed side separately. No added salt/onion/garlic.
Morning: 6–10 min cooking Night before: Soak moong / use batch batter		Open YouTube reference
OPTION 3: Unsalted Poha-Moong Egg Bowl + Milk		505 kcal 30.7 g protein 8.6 g fiber

Thick poha / flattened rice (dry) 25 g Moong dal (dry) 20 g Frozen sweet peas [CF] 50 g Low-fat milk 300 ml Whole eggs 1 Egg whites 15 g Cooking oil 2 g SEPARATE SEED SIDE: Ground flaxseed 5 g Hemp hearts 5 g Sunflower seeds 5 g No added salt; no onion/garlic because milk is part of this breakfast	Soften poha, fold in cooked moong and peas, and heat with permitted salt-free spices using exactly 2 g oil. Serve milk and eggs separately. Eat the seed mix separately. No added salt/onion/garlic.
Morning: 6–10 min cooking Night before: Use batch-cooked moong if desired	Open YouTube reference
NO-COOK MORNING: Overnight No-Cook Breakfast Jar + Pre-Cooked Eggs	481 kcal 28.8 g protein 4.3 g fiber
Ready-to-eat / steam-processed ragi flakes 10 g Thick poha / flattened rice 40 g Low-fat milk 300 ml Whole eggs 1 Batch-cooked egg whites 50 g SEPARATE SEED SIDE: Ground flaxseed 5 g Hemp hearts 5 g Sunflower seeds 5 g No added salt; no onion/garlic Use RTE/steam-processed ragi flakes only — not raw ragi flour	At night, combine only the listed grain/flakes and milk in a covered jar and refrigerate. Portion the seed mix in a separate container. Use eggs/egg-white portions cooked in batch earlier. In the morning, eat directly with no cooking. Keep refrigerated ≤4°C/40°F and use within 24 hours.
Morning: 0 min cooking Night before: 2–3 min assembly; refrigerate ≥6 h	Open YouTube reference

Other Meal Recipe Options

Mid-morning fruit

Option 1: Plain Mango	2 min prep 0 cook Batch: No	No video needed
Prepare the measured mango and eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 2: Chilled Mango	2 min prep 0 cook Batch: No	No video needed
Chill the measured mango and eat it by itself; do not add seasonings or other foods.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 3: Mango - Alternate Cut	2 min prep 0 cook Batch: No	No video needed
Slice, dice, or lightly mash the measured mango for a different texture; eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed

Lunch

Option 1: Air-Fryer Tandoori-Style Tilapia Bowl	8 min prep 8–10 min fish cook Batch: Partial	YouTube
Coat tilapia with turmeric, cumin, coriander, chili, ginger, garlic and lemon—no yogurt. Air-fry until cooked. Serve with batch chickpeas, rice and vegetables; sprinkle sesame.	Recommended — Best fish option	YouTube search fallback
Option 2: Pan-Seared Masala Tilapia + Chana Rice	8 min prep 8–10 min cook Batch: Partial	YouTube
Season tilapia with turmeric/cumin/coriander; pan-cook using only part of the listed oil. Serve with chickpea-vegetable rice and sesame.	No air fryer needed	YouTube search fallback
Option 3: Tilapia-Chana Vegetable Curry	8 min prep 12 min cook Batch: Partial	YouTube
Make onion-ginger-garlic chickpea vegetable curry; add tilapia near the end and gently simmer until cooked. Serve with rice and sesame.	One-bowl curry style	YouTube search fallback

Dinner

Option 1: Chicken-Moong Vegetable Khichdi	8 min prep 12–15 min cook Batch: Yes	YouTube
Pressure-cook chicken, moong, rice, cabbage, mushrooms and peas with spices; finish with sesame.	Recommended — Lowest cleanup	Direct reference
Option 2: Pepper Chicken + Moong Rice Bowl	8 min prep 10–12 min cook Batch: Yes	YouTube
Use batch moong/rice; cook pepper-cumin chicken with vegetables in listed oil. Combine and top with sesame.	Fast batch meal	Direct reference
Option 3: Chicken-Mushroom Moong Stew	6 min prep 12 min cook Batch: Yes	YouTube
Cook chicken, moong, cabbage, mushrooms and peas into a thick stew. Serve with rice and sesame.	Minimal active work	Direct reference

Day 5

1779 kcal | 124.3 g protein | 45.2 g fiber | 1.80 g omega-3 | 7.0 µg vitamin D

Base Recommended Day

Meal	Exact ingredients	kcal	Protein	Fiber
Breakfast	Ragi flour 45 g Low-fat milk 300 ml Whole eggs 1 Egg whites 50 g SEPARATE SEED SIDE: Sesame seeds 5 g Sunflower seeds 5 g Chia seeds 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/ragi bowl	457	28.0	8.0
Mid-morning fruit	Papaya [CF] 150 g Eat alone; ≥2 h after breakfast and ≥2 h before lunch	64	0.8	2.5
Lunch	Chicken breast 100 g Masoor dal (dry) 40 g Rice (dry) 35 g Cauliflower [CF] 150 g Cabbage [CF] 150 g Carrots [CF] 100 g Onion [CF] 40 g Sesame seeds 10 g Cooking oil 3 g No milk/curd/yogurt	604	42.7	16.1
Dinner	Whole eggs 2 Egg whites 150 g Rajma (dry) 40 g Asparagus [CF] 120 g Mushrooms [CF] 150 g Frozen sweet peas [CF] 60 g Rice (dry) 30 g Sesame seeds 10 g Cooking oil 3 g No milk/curd/yogurt	653	52.8	18.6

Breakfast - 4 Interchangeable Options

RECOMMENDED: Ragi Milk Porridge + Eggs + Separate Seed Side		457 kcal 28.0 g protein 8.0 g fiber
Ragi flour 45 g Low-fat milk 300 ml Whole eggs 1 Egg whites 50 g SEPARATE SEED SIDE: Sesame seeds 5 g Sunflower seeds 5 g Chia seeds 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/ragi bowl	Cook the listed oats/ragi with milk. Cook or use batch-prepared eggs/egg whites separately. Eat the measured seed mix from a separate small bowl/container; do not stir it into the milk/grain meal.	
Morning: Cook grain/eggs Night before: Optional seed pre-portion	Open YouTube reference	
OPTION 2: Unsalted Ragi-Moong Chilla + Milk + Egg		484 kcal 31.6 g protein 9.7 g fiber
Ragi flour 25 g Moong dal (dry) 25 g Low-fat milk 275 ml Whole eggs 1 Egg whites 50 g Cooking oil 2 g SEPARATE SEED SIDE: Sesame seeds 5 g Sunflower seeds 5 g Chia seeds 5 g No added salt; no onion/garlic because milk is part of this breakfast	Use soaked/batch-ground moong with ragi and permitted salt-free spices to make thin chillas with exactly 2 g oil. Serve milk, egg/egg whites and the seed side separately. No added salt/onion/garlic.	
Morning: 6–10 min cooking Night before: Soak moong / use batch batter	Open YouTube reference	
OPTION 3: Unsalted Poha-Moong Egg Bowl + Milk		511 kcal 32.9 g protein 9.3 g fiber

Thick poha / flattened rice (dry) 25 g Moong dal (dry) 20 g Frozen sweet peas [CF] 50 g Low-fat milk 275 ml Whole eggs 1 Egg whites 50 g Cooking oil 2 g SEPARATE SEED SIDE: Sesame seeds 5 g Sunflower seeds 5 g Chia seeds 5 g No added salt; no onion/garlic because milk is part of this breakfast	Soften poha, fold in cooked moong and peas, and heat with permitted salt-free spices using exactly 2 g oil. Serve milk and eggs separately. Eat the seed mix separately. No added salt/onion/garlic.
Morning: 6–10 min cooking Night before: Use batch-cooked moong if desired	Open YouTube reference
NO-COOK MORNING: Overnight No-Cook Breakfast Jar + Pre-Cooked Eggs	482 kcal 29.7 g protein 8.4 g fiber
Rolled oats 15 g Ready-to-eat / steam-processed ragi flakes 35 g Low-fat milk 300 ml Whole eggs 1 Batch-cooked egg whites 50 g SEPARATE SEED SIDE: Sesame seeds 5 g Sunflower seeds 5 g Chia seeds 5 g No added salt; no onion/garlic Use RTE/steam-processed ragi flakes only — not raw ragi flour	At night, combine only the listed grain/flakes and milk in a covered jar and refrigerate. Portion the seed mix in a separate container. Use eggs/egg-white portions cooked in batch earlier. In the morning, eat directly with no cooking. Keep refrigerated ≤4°C/40°F and use within 24 hours.
Morning: 0 min cooking Night before: 2–3 min assembly; refrigerate ≥6 h	Open YouTube reference

Other Meal Recipe Options

Mid-morning fruit

Option 1: Plain Papaya	2 min prep 0 cook Batch: No	No video needed
Prepare the measured papaya and eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 2: Chilled Papaya	2 min prep 0 cook Batch: No	No video needed
Chill the measured papaya and eat it by itself; do not add seasonings or other foods.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 3: Papaya - Alternate Cut	2 min prep 0 cook Batch: No	No video needed
Slice, dice, or lightly mash the measured papaya for a different texture; eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed

Lunch

Option 1: Chicken-Masoor Dal Bowl	8 min prep 12–15 min cook Batch: Yes	YouTube
Pressure-cook masoor with cauliflower, cabbage, carrots and onion. Stir in quick-cooked chicken or serve on top; eat with rice and sesame.	Recommended — Very batch friendly	Direct reference
Option 2: Chicken Masoor Khichdi	8 min prep 10–12 min cook Batch: Yes	YouTube
Combine chicken, masoor, rice and vegetables with spices; pressure-cook. Finish with sesame.	Fastest one-pot option	Direct reference
Option 3: Pepper Chicken + Masoor Vegetable Dal	8 min prep 10 min cook Batch: Yes	YouTube
Use batch masoor dal; cook quick pepper chicken in listed oil. Serve with rice and sesame.	Best with prep-day dal	Direct reference

Dinner

Option 1: Rajma Egg Rice Bowl	8 min prep 10 min after beans cooked cook Batch: Yes	YouTube
Serve batch-cooked rajma/vegetables over rice; top with chopped boiled eggs/whites and sesame.	Recommended — Very easy if rajma is ready	YouTube search fallback
Option 2: Egg-Rajma Masala	8 min prep 10–12 min cook Batch: Yes	YouTube
Cook rajma with mushrooms, peas and asparagus; fold in egg bhurji. Serve with rice and sesame.	Good texture	YouTube search fallback
Option 3: Rajma Vegetable Stew + Eggs	6 min prep 10 min cook Batch: Yes	YouTube
Make thick rajma-vegetable stew; add boiled eggs/whites at serving. Serve rice and sesame alongside.	Lowest active effort	YouTube search fallback

Day 6

1750 kcal | 126.5 g protein | 43.9 g fiber | 2.80 g omega-3 | 10.0 µg vitamin D

Base Recommended Day

Meal	Exact ingredients	kcal	Protein	Fiber
Breakfast	Oats 37 g Low-fat milk 300 ml Whole eggs 2 SEPARATE SEED SIDE: Chia seeds 5 g Hemp hearts 5 g Pumpkin seeds 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/oats	488	31.3	5.9
Mid-morning fruit	Kiwi [CF] 150 g Eat alone; ≥2 h after breakfast and ≥2 h before lunch	92	1.7	4.5
Lunch	Chicken breast 100 g Chickpeas (dry) 40 g Rice (dry) 30 g Cabbage [CF] 150 g Cauliflower [CF] 150 g Onion [CF] 50 g Sesame seeds 10 g Cooking oil 2 g No milk/curd/yogurt	551	40.0	14.0
Dinner	Ocean perch fillet 160 g Moong dal (dry) 35 g Ragi flour 45 g Asparagus [CF] 120 g Mushrooms [CF] 150 g Carrots [CF] 100 g Sesame seeds 15 g Cooking oil 2 g No milk/curd/yogurt	620	53.5	19.5

Breakfast - 4 Interchangeable Options

RECOMMENDED: Warm Oats + Eggs + Separate Seed Side		488 kcal 31.3 g protein 5.9 g fiber
Oats 37 g Low-fat milk 300 ml Whole eggs 2 SEPARATE SEED SIDE: Chia seeds 5 g Hemp hearts 5 g Pumpkin seeds 5 g No added salt; no onion/garlic in this milk-containing meal Do not mix seeds into the milk/oats		Cook the listed oats/ragi with milk. Cook or use batch-prepared eggs/egg whites separately. Eat the measured seed mix from a separate small bowl/container; do not stir it into the milk/grain meal.
Morning: Cook grain/eggs Night before: Optional seed pre-portion		Open YouTube reference
OPTION 2: Unsalted Ragi-Moong Chilla + Milk + Egg		482 kcal 32.7 g protein 9.2 g fiber
Ragi flour 25 g Moong dal (dry) 25 g Low-fat milk 275 ml Whole eggs 1 Egg whites 50 g Cooking oil 2 g SEPARATE SEED SIDE: Chia seeds 5 g Hemp hearts 5 g Pumpkin seeds 5 g No added salt; no onion/garlic because milk is part of this breakfast		Use soaked/batch-ground moong with ragi and permitted salt-free spices to make thin chillas with exactly 2 g oil. Serve milk, egg/egg whites and the seed side separately. No added salt/onion/garlic.
Morning: 6–10 min cooking Night before: Soak moong / use batch batter		Open YouTube reference
OPTION 3: Unsalted Poha-Moong Egg Bowl + Milk		509 kcal 34.1 g protein 8.8 g fiber

Thick poha / flattened rice (dry) 25 g Moong dal (dry) 20 g Frozen sweet peas [CF] 50 g Low-fat milk 275 ml Whole eggs 1 Egg whites 50 g Cooking oil 2 g SEPARATE SEED SIDE: Chia seeds 5 g Hemp hearts 5 g Pumpkin seeds 5 g No added salt; no onion/garlic because milk is part of this breakfast Morning: 6–10 min cooking Night before: Use batch-cooked moong if desired	Soften poha, fold in cooked moong and peas, and heat with permitted salt-free spices using exactly 2 g oil. Serve milk and eggs separately. Eat the seed mix separately. No added salt/onion/garlic. Open YouTube reference
NO-COOK MORNING: Overnight No-Cook Breakfast Jar + Pre-Cooked Eggs	
Ready-to-eat / steam-processed ragi flakes 20 g Thick poha / flattened rice 30 g Low-fat milk 300 ml Whole eggs 2 SEPARATE SEED SIDE: Chia seeds 5 g Hemp hearts 5 g Pumpkin seeds 5 g No added salt; no onion/garlic Use RTE/steam-processed ragi flakes only — not raw ragi flour Morning: 0 min cooking Night before: 2–3 min assembly; refrigerate ≥6 h	522 kcal 30.1 g protein 5.4 g fiber At night, combine only the listed grain/flakes and milk in a covered jar and refrigerate. Portion the seed mix in a separate container. Use eggs/egg-white portions cooked in batch earlier. In the morning, eat directly with no cooking. Keep refrigerated ≤4°C/40°F and use within 24 hours. Open YouTube reference

Other Meal Recipe Options

Mid-morning fruit

Option 1: Plain Kiwi	2 min prep 0 cook Batch: No	No video needed
Prepare the measured kiwi and eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 2: Chilled Kiwi	2 min prep 0 cook Batch: No	No video needed
Chill the measured kiwi and eat it by itself; do not add seasonings or other foods.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 3: Kiwi - Alternate Cut	2 min prep 0 cook Batch: No	No video needed
Slice, dice, or lightly mash the measured kiwi for a different texture; eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed

Lunch

Option 1: Chicken Chana Pulao	8 min prep 12 min cook Batch: Yes	YouTube
Use batch-cooked chickpeas. Combine chicken, rice, cabbage, cauliflower, onion and chickpeas with spices and listed oil; pressure-cook. Finish with sesame.	Recommended — One-pot best choice	Direct reference
Option 2: Chicken-Chickpea Vegetable Curry + Rice	8 min prep 10–12 min cook Batch: Yes	YouTube
Cook chickpeas and vegetables into a curry; add quick-cooked chicken. Serve with rice and sesame.	Easy batch curry	Direct reference
Option 3: Sesame Chicken Chana Bowl	8 min prep 10 min cook Batch: Yes	YouTube
Lightly cook chicken and vegetables; add cooked chickpeas. Serve over rice and top with sesame.	Fastest with prepared components	Direct reference

Dinner

Option 1: Masala Ocean Perch + Ragi Mudde + Moong Vegetables	10 min prep 10–12 min cook Batch: Partial	YouTube
Air-fry or pan-cook perch with turmeric, cumin, coriander, ginger and lemon—no dairy. Serve with ragi mudde and moong vegetables; sesame on top.	Recommended — Best texture	Direct reference
Option 2: Ocean Perch Moong Curry + Ragi Porridge	8 min prep 12 min cook Batch: Partial	YouTube
Cook moong with vegetables and spices; gently poach perch near the end. Serve with savory ragi porridge and sesame.	One curry + one starch	Direct reference
Option 3: Ragi Chilla + Pepper Perch Bowl	10 min prep 10 min cook Batch: Partial	YouTube
Make ragi chillas without extra oil. Air-fry/pan-cook pepper-spiced perch; serve moong/vegetables and sesame alongside.	More variety	YouTube search fallback

Day 7

1753 kcal | 122.5 g protein | 42.4 g fiber | 3.10 g omega-3 | 4.9 µg vitamin D

Morning: 6–10 min cooking Night before: Use batch-cooked moong if desired	Open YouTube reference
NO-COOK MORNING: Overnight No-Cook Breakfast Jar + Pre-Cooked Eggs	514 kcal 36.6 g protein 9.0 g fiber
Rolled oats 30 g Ready-to-eat / steam-processed ragi flakes 20 g Low-fat milk 300 ml Whole eggs 1 Batch-cooked egg whites 100 g SEPARATE SEED SIDE: Ground flaxseed 5 g Chia seeds 5 g Sunflower seeds 5 g No added salt; no onion/garlic Use RTE/steam-processed ragi flakes only — not raw ragi flour	At night, combine only the listed grain/flakes and milk in a covered jar and refrigerate. Portion the seed mix in a separate container. Use eggs/egg-white portions cooked in batch earlier. In the morning, eat directly with no cooking. Keep refrigerated ≤4°C/40°F and use within 24 hours.
Morning: 0 min cooking Night before: 2–3 min assembly; refrigerate ≥6 h	Open YouTube reference

Other Meal Recipe Options

Mid-morning fruit

Option 1: Plain Banana	1 min prep 0 cook Batch: No	No video needed
Prepare the measured banana and eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 2: Chilled Banana	1 min prep 0 cook Batch: No	No video needed
Chill the measured banana and eat it by itself; do not add seasonings or other foods.	Fruit remains literally alone; no dairy or seasonings.	Not needed
Option 3: Banana - Alternate Cut	1 min prep 0 cook Batch: No	No video needed
Slice, dice, or lightly mash the measured banana for a different texture; eat it by itself.	Fruit remains literally alone; no dairy or seasonings.	Not needed

Lunch

Option 1: Instant Pot Goat-Masoor Stew	10 min prep 25–35 min cook Batch: Yes	YouTube
Pressure-cook goat with onion, ginger, garlic and spices until tender. Add cooked masoor and vegetables and simmer; serve with rice and sesame.	Recommended — Best batch choice	Direct reference
Option 2: Lean Goat Curry + Masoor Vegetable Rice	10 min prep 25–35 min cook Batch: Yes	YouTube
Batch-cook lean goat curry using only listed oil. Serve measured goat with masoor, rice, vegetables and sesame.	Best for freezing portions	Direct reference
Option 3: Goat-Masoor One-Bowl Meal	10 min prep 30 min cook Batch: Yes	YouTube
Pressure-cook goat first; once tender, add pre-cooked masoor, vegetables and cooked rice to combine briefly. Finish with sesame.	Lowest serving-time effort	Direct reference

Dinner

Option 1: Chicken-Toor Dal Khichdi	8 min prep 12–15 min cook Batch: Yes	YouTube
Pressure-cook chicken, toor dal, rice, cauliflower, cabbage, mushrooms and peas with spices; finish with sesame.	Recommended — One-pot favorite	YouTube search fallback
Option 2: Chicken Vegetable Toor Dal + Rice	8 min prep 15 min cook Batch: Yes	YouTube
Cook toor dal with cauliflower, cabbage, mushrooms and peas using turmeric, cumin, coriander, mustard seeds, curry leaves, chili and hing; add cooked chicken. Serve with rice and sesame. No curd.	Good batch dish	YouTube search fallback
Option 3: Pepper Chicken + Toor Vegetable Rice Bowl	8 min prep 10–12 min cook Batch: Yes	YouTube
Use batch-cooked toor dal/rice; cook chicken with pepper/cumin and vegetables using listed oil. Serve together with sesame.	Fast with prep-day bases	YouTube search fallback

Batch Prep Guide

Component	Method	Equipment	Frequency	Finish	Notes
Rice	Cook plain rice in bulk; portion according to dry-weight equivalents in the meal plan.	Instant Pot / rice cooker	2-3 days at a time	Reheat only the portion needed until steaming hot.	Do not add extra oil; use the meal's listed oil separately.
Toor dal	Pressure-cook plain with turmeric; add meal-specific vegetables/spices when reheating.	Instant Pot	2-3 portions	Reheat with a splash of water; add vegetables/chicken as required.	Keeps recipes interchangeable.
Moong dal	Pressure-cook a lightly seasoned base; keep thick enough for khichdi/stew variations.	Instant Pot	3-4 portions	Thin or thicken at serving; add meal vegetables/protein.	Most versatile dal in the plan.
Masoor dal	Pressure-cook or simmer; leave neutral enough for goat/chicken variations.	Instant Pot / stove	2-3 portions	Reheat with vegetables/spices.	Cooks quickly; good weekday base.
Rajma	Soak overnight; pressure-cook fully until very soft. Store cooked beans with a little cooking liquid.	Instant Pot	Cook both weekly portions together	Reheat thoroughly before adding to curry/pulao.	Never undercook kidney beans.
Chickpeas	Soak overnight; pressure-cook fully and divide into meal portions.	Instant Pot	Cook all weekly chickpeas together	Add to rice bowls/curries near the end.	Freeze extra portions if not using within a few days.
Chicken	Trim and portion into 100 g raw packs; optionally marinate dry with turmeric/cumin/coriander/ginger/garlic.	Containers / freezer	Prepare 2-3 days or freeze individual portions	Cook fresh or add raw to Instant Pot one-pot meals.	No dairy marinades; keep oil to the listed meal amount.
Tilapia 160 g	Pre-portion raw fish; season just before cooking.	Air fryer / pan	Single serving	Air-fry/pan-cook fresh ~8-10 min.	Do not batch-cook several days ahead; no yogurt marinade.
Ocean perch 160 g	Pre-portion raw fish; season just before cooking.	Air fryer / pan	Single serving	Air-fry/pan-cook fresh ~8-10 min.	Best texture when cooked fresh; no dairy.
Lean goat/mutton	Pressure-cook 2-3 lean portions with onion/ginger/garlic/spices; portion after cooking by raw-equivalent plan amount if pre-weighed.	Instant Pot	2-3 portions	Reheat gently with masoor/vegetables.	Longest cook item, so batch preparation saves the most time.
Vegetables	Wash/chop cabbage, cauliflower, carrots, asparagus, mushrooms and onion; keep in separate containers.	Knife / containers	2-3 days	Steam, sauté lightly, or add to Instant Pot meals.	Pre-chopping is the biggest daily time saver.
Breakfast grain packs	Pre-portion oats/ragi/poha quantities separately from the seed packs; keep raw ragi flour for cooked options only.	Containers	Prepare 5-7 labeled packs	Add milk and cook for Options 1-3, or assemble the approved RTE flakes/poha overnight for Option 4.	Do not put the seed mix into the grain pack if it will be mixed with milk.
Eggs / egg whites	Batch-boil whole eggs and batch-cook measured egg-white portions so overnight breakfasts require no morning cooking.	Instant Pot / stove	2-3 days at a time	Eat cold or warm gently when desired; Option 4 requires no morning cooking.	Keep exact option-specific egg/egg-white quantities.
Fruit	Wash/portion when practical, but cut kiwi/mango/papaya close to serving for quality.	Knife / containers	1-2 days	No reheating needed.	Eat alone, separated from dairy and main meals per the chosen Viruddha-Ahara framework.
Breakfast seed packs	Pre-portion chia, ground flax, hemp hearts, pumpkin seeds, sunflower seeds and sesame according to the daily rotation.	Containers	Entire week	Eat the measured pack separately from the milk/grain bowl.	Pre-portioning prevents calorie creep and keeps the user-requested separate-seed rule.
Overnight jars	At night add the listed oats / thick poha / RTE steam-processed ragi flakes and milk to a covered jar.	Jar + refrigerator	Nightly	No cooking in the morning; consume within 24 hours.	Never use raw ragi flour as a no-cook overnight ingredient. Seeds remain in a separate container.

Shopping Snapshot - Recommended Option 1

The companion shopping workbook contains the full Costco/Walmart/Lotte comparison plus a Breakfast Flex Shopping sheet for optional Options 2-4.

Department	Item	Weekly need	Recommended store
Produce	White mushrooms	1050 g	Lotte

Criteria Audit

Criterion	Status	Verification / action
Calories 1,700–1,900 kcal/day	PASS	All 7 days remain within range.
Protein 110–130 g/day	PASS	All 7 days remain within range.
Fiber ≥38 g/day	PASS	All days meet target.
Fat 20–35% kcal	PASS	Planning values remain within AMDR.
Saturated fat <10% kcal	PASS	Now explicitly tracked; all days are below limit in the planning model.
Calcium ≥1,000 mg/day	PASS	At/above target in final planning totals.
Iron ≥8 mg/day	PASS	All days exceed target.
Magnesium ≥420 mg/day	PASS	All days exceed target.
Potassium ≥3,400 mg/day	PASS	All days exceed target.
B12 ≥2.4 µg/day	PASS	All days exceed target.
Folate ≥400 µg DFE/day	PASS	All days exceed target.
Vitamin D ≥15 µg/day	CLINICIAN GAP	Food alone remains low on most days. Do not raise cod liver simply to correct this.
Omega-3 planning guide ≥1.6 g/day	PASS	Day 2 chia +5 g and Day 5 flax +5 g close the prior gaps; not an exact EPA/DHA measure.
Preformed vitamin A <3,000 µg RAE/day	PASS	Now tracked; cod-liver day remains below adult UL in planning model.
Tilapia 160 g / ocean perch 160 g	PASS	One meal each; unchanged.
Frequent ragi	PASS	Retained.
No salmon / tofu / croaker / red snapper / farm rock	PASS	None appear in the final meal plan.
2026 Dirty Dozen excluded	PASS	No listed Dirty Dozen produce used.
2026 Clean Fifteen prioritized	PASS	Plan emphasizes the agreed Clean Fifteen produce.
ICAN cod liver 20 g once weekly	PASS	Retained on Day 1 only.
Viruddha Ahara 18-item framework	PASS + BEHAVIORAL	Ingredient rules are implemented; behavioral items still depend on meal timing, water temperature, and eating state.
Fruit eaten literally alone	PASS	All fruit recipe options now contain only the fruit.
Approved seasonings only	PASS	Cardamom removed; vague sambar wording replaced with explicit approved spices.
Indian cuisine / low effort / Instant Pot / batch	PASS	Recipe mapping and batch guide retain all preferences.
Breakfast 4 options / other meals 3 options	PASS	Breakfasts now have 4 options including a no-cook overnight option; all other meals retain 3 options.
Exact ingredient quantities synchronized to recipes	PASS	Revised breakfast seed rotation and four option-specific breakfast ingredient sets are synchronized.
Shopping list synchronized	PASS	A separate final shopping workbook is generated from this final plan.
Detailed PDF synchronized	PASS	A separate final PDF is generated from this final plan.
Breakfast seed rotation	PASS	Chia, flax, hemp, pumpkin, sunflower and sesame are rotated in measured separate seed packs.
No-cook overnight breakfast	PASS	Every day has Option 4 with 0 minutes morning cooking; ingredients are assembled/refrigerated the night before.
Breakfast projected daily core targets	PASS	All 28 breakfast options keep projected daily calories 1,700–1,900, protein 110–130 g, fiber ≥38 g, calcium ≥1,000 mg, B12 ≥2.4 µg and omega-3 ≥1.6 g.
Vitamin E food target	PLANNING GAP	Sunflower rotation improves Vitamin E, but the generic model remains below 15 mg/day; unspecified cooking oil contribution is intentionally excluded.

Targets & Interpretation

Nutrient	Target / guide	Interpretation
Calories	1,700-1,900 kcal/day	Personalized planning range.
Protein	110-130 g/day	All days remain inside requested range.
Fiber	≥38 g/day	All days meet target.
Calcium	1,000 mg/day	All days are approximately at or above target.
Iron	8 mg/day	Adult male RDA.
Magnesium	420 mg/day	Adult male RDA.
Potassium	3,400 mg/day	Adult male AI used in this plan.
Vitamin A total	900 µg RAE/day	Adult male RDA; includes provitamin A from plant foods.
Preformed vitamin A	UL 3,000 µg RAE/day	Safety limit applies to preformed vitamin A; plant carotenoids are treated separately.
Vitamin C	90 mg/day	Adult male RDA.
Vitamin D	15 µg/day	Food alone remains below target on most days; clinician-guided supplementation/follow-up remains appropriate.
Vitamin E	15 mg/day	Adult RDA. The new sunflower-seed rotation raises food Vitamin E, but generic totals remain below 15 mg/day; unspecified cooking oil is still excluded and could materially change the total.
Vitamin K	120 µg/day	Adult male AI. Cooking-oil vitamin K is excluded because the specific oil was not defined.
Vitamin B1 (thiamin)	1.2 mg/day	Adult male RDA.
Vitamin B2 (riboflavin)	1.3 mg/day	Adult male RDA.
Vitamin B3 (niacin)	16 mg NE/day	Adult male RDA; food-composition estimate.
Vitamin B5 (pantothenic acid)	5 mg/day	Adult AI.
Vitamin B6	1.3 mg/day	Adult RDA for ages 19-50.
Vitamin B7 (biotin)	30 µg/day	Adult AI. This is the lowest-confidence vitamin estimate because generic food databases often have incomplete biotin values.
Vitamin B9 (folate)	400 µg DFE/day	Adult RDA.
Vitamin B12	2.4 µg/day	Adult RDA.
Omega-3	ALA AI 1.6 g/day planning guide	Planning figure; not an exact EPA/DHA assessment.
Clinical note	Not treatment	Food-composition values are planning estimates and do not replace clinician-directed treatment or laboratory follow-up.

Sources & Method

Food composition

<https://fdc.nal.usda.gov/>

Generic USDA FoodData Central foods; values rounded for planning. Brand-specific foods can differ.

DRI fact sheets

<https://ods.od.nih.gov/factsheets/List-VitaminsMinerals/>

Adult vitamin/mineral reference targets and safety context.

Ayurvedic rule set

<https://ayurvedahub.in/blogs/ayurvedic-wellness/viruddha-ahara-wrong-food-combinations-ayurveda-ashtanga-hridaya>

Primary requested basis for the 18 food-combination avoidance rules.

2026 EWG Dirty Dozen

<https://www.ewg.org/foodnews/dirty-dozen.php>

Excluded from this plan per user preference.

2026 EWG Clean Fifteen

<https://www.ewg.org/foodnews/full-list.php>

Prioritized where nutritionally appropriate per user preference.

FDA/EPA fish advice

<https://www.fda.gov/food/consumers/advice-about-eating-fish>

Tilapia and perch (freshwater/ocean) are listed as Best Choices for mercury.

Cod liver

User-provided ICAN label

20 g once weekly; vitamin A/D scaled from label. Not increased because of concentrated preformed vitamin A.

Method

Planning calculation

Generic per-100-g values were multiplied by listed edible weights. Grains/legumes are dry; meats/fish raw edible weight; produce pre-cooking. Values are rounded and not laboratory-precise.

Sat-fat / vitamin-A audit

Generic USDA-style food-composition planning values + ICAN label

Saturated fat is estimated using generic foods and generic cooking oil; preformed vitamin A tracks retinol-type sources relevant to the 3,000 µg RAE UL, not plant carotenoids.

Breakfast seed rotation

This revision + <https://fdc.nal.usda.gov/>

Breakfast seeds now rotate chia, ground flax, hemp hearts, pumpkin, sunflower and sesame. Chia/flax/hemp preserve omega-3 planning coverage; sunflower improves vitamin E exposure.

Important limitation

USDA generic foods are not the exact brands you buy.

For label-specific precision, substitute package labels or exact FoodData Central IDs.

Complete vitamin panel

Generic USDA-style food-composition planning values

Added Vitamin A total, C, E, K, B1, B2, B3, B5, B6 and estimated B7 to Daily Nutrition. Existing D, B9 and B12 columns were retained and renamed clearly.

Vitamin E/K from oil

Not included

The meal plan says only 'cooking oil' without specifying oil type; vitamin E and K contributions from oil vary substantially, so they are conservatively excluded.

Biotin (B7) limitation

Estimated

Biotin values are less consistently reported in generic food-composition databases. B7 is included as an estimate and should not be treated as laboratory-precise.

New seed profiles

<https://fdc.nal.usda.gov/>

Hemp, pumpkin and sunflower values use generic FoodData Central-style planning profiles; exact brands can differ.

Overnight grain approximation

Planning approximation

Ready-to-eat ragi flakes are modeled with the ragi grain/flour planning profile; poha is modeled with a generic flattened/parboiled rice profile. Exact package labels should replace these estimates when purchased.

Breakfast alternative method

This revision

Projected full-day totals are calculated by replacing the revised Option 1 breakfast with each alternative while leaving the rest of that day unchanged.

YouTube recipe references

YouTube public videos / searches

Added as optional technique references only; they are not the nutrition source of truth for this workbook.

YouTube matching method

Closest verified recipe technique

Where no close exact video was verified, a YouTube search fallback is labeled as such instead of presenting it as an exact match.

YouTube recipes are optional technique references only. Workbook ingredient quantities and restrictions override the external videos.
